PROTECTION

In The Interest of Automobile Owners of Torrance and Vicinity,

We would suggest that, for information regarding the new Automobile Liability Law, and insurance in connection therewith; also, details covering new Drivers' Licenses, you

Get In Touch With Your Local Insurance Agent

Recently, there have come to our attention several cases where strangers have persuaded neighbors of ours into buying what was alleged to have been automobile protection and, when the applicant investigated his contract, found he had no protection at all. In every case, you have the right to go direct to the Insurance Commissioner of the State of California for proper redress.

When you buy protection, you should be sure that you get protection, and the very best way to insure that protection for yourself and family is to deal with people whom you know personally, or Agencies locally established whom you can find when the time comes for settling any claims or controversies in which you may be involved.
